

Corrected

This is ~~the an~~ accident report ~~in of~~ Haneda airport ~~at on~~ the second day of January 2024.

JAL and ~~a~~ CoastGuard's airplane ~~was touched on~~ ~~the~~ landing course and both airplanes ~~was were~~ burned. All customers and staffs in the JAL airplane were saved ~~their life~~, but unfortunately ~~the~~ CoastGuard staff, who were five ~~peoples~~ ~~people~~, ~~were dead died without but not the~~ captain. This report is ~~from~~ the captain of JAL. He said his airplane got ~~the~~ permission for landing from ~~the~~ airport. I think the ~~important main miss error~~ was ~~because of the~~ coast Guard ~~plainplane. B~~ ~~but a few of~~ ~~small misses~~ or unusual things ~~was~~ happened ~~in at~~ ~~the~~ same time. It's really bad.

Jamie's Version

This is a report regarding the accident at Haneda airport which occurred on January 2nd 2024. A JAL and coastguard plane collided on the runway of the airport and both airplanes caught fire and could not be saved. All the people onboard the JAL plane escaped safely but regrettably 5 members of staff from the coastguard plane were killed, however, the captain was not among them. The report from the JAL airline pilot stated that he had permission to land from traffic control so I believe that the coastguard plane was at fault but there were other mistakes or unaccountable problems that also happened at that time which is very worrying.
